not be possible to modify the scheme and the Board of Governors would have the final authority for the implementation of the agreements reached between the two sides of the council. For successful implementation of the JCM there has to be an acceptance of mutual trust between the two sides and if the scheme is implemented in its proper perspective, there should be no difficulty in the two sides coming to an agreement on many important matters.

The representative of the KVS staff Association (Hqrs) pleaded for the allocation of two seats on the council to his association as against one, as the entire staff of the KVS Staff Association (HQ) are on the roll of this association and there is no other association for the staff of the Kendriya Vidyalaya Sangathan *(H. Q.).* Chairman indicated that providing additiona[1] representation to the KVS Staff Association would mean enhancing the membership of the official side also and is likely to raise demand from other associations for enhancing their representation on the council. How-he desired the Sangathan to consult the Department of Personnel and AR and with regard to additional representation to KVS Staff Association after a formal proposal is made by the Association

Chairman requested the association to elect their leader and Secretary as provided in the scheme of JCM and initimate their names to the KVS well in time before the next meeting of the JCM.

The meeting ended with a vote of thanks to the Chair.

Short snpply of drugs required for Kalazar Treatment

3G52. SHRI SHANKER SINH VA GHELA: Will th : HEALTH AND FAMILY WELFARE be pleased to refer to the reply to Starred Q 320 given in the Rai;. *on* the 16th.1988 and state vs drugs for treatment of Kalazar short supply if so.,measures taken or prop taken?

THE MINISTER E IN THE MINISTRY OF HEALTH AND F WELFARE (KUMARI SAROJ KHAPARDE): Injection sodium gluconate is used a first line of treatment of Kala-azar cases. Most Of the cases respond well with this drug. Resistance develops usually due to irregular courses and incomplete treatment with injection sodium antimony gluconate. 5 to 10 per cent of Kala-azar cases were reported to be resistant of the sodium antimony" gluconate. There is no short supply of sodium antimony gluconate, which is indigenously manufactured. Resistant cases are required to be treated with injectionction pentamidine which is not indigenously manufactured and is required to be imported from abroad, Injection Pentami-
